Election/Restrictions

1. Please note the Examiner has changed. Contact information is provided at the close of the action. The Examiner acknowledges Applicants' response filed August 12, 2002. Upon reconsideration the election/restriction mailed June 6, 2002 as Paper number 8 has been vacated and a new action is set forth below.

2. Claims 1-4, 7, 8, 14, 15 and 20-23 are pending.

Claims 5, 6, 9-13, 16-19 and 24-59 have been cancelled.

Claims 1, 8 and 14 have been amended.

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, 7, 8, 14 and 23 drawn to a 1255PC8-related protein, classified in class 530, subclass 350.

II. Claims 15 and 20-22, drawn to a 125P5C8 nucleotide, classified in class 536, subclass 23.1.

4. The inventions are distinct, each from the other because of the following reasons:

Groups I-II are structurally and functionally different products that are made by different methods and have different uses. Group I is drawn to polypeptides which are a linear order of amino acids that occur in a peptide or in a protein. Group II is drawn to nucleic acid molecules, which are polynucleotides that occur as either DNA or RNA and may be either, single-stranded or double-stranded. The examination of all groups would

Art Unit: 1642

require different searches in the U.S. Patent Shoes and the scientific literature and would require the consideration of different patentability issues.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. A telephone call was made to David L. Devernoe on November 14, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alana M. Harris, Ph.D. whose telephone number is
